Product Overview

Product Show

The PAN17 air disc brake caliper designed for heavy-duty commercial vehicles.

High-Performance Air Disc Brake Solutions

The PAN17 Air Disc Brake Caliper is a critical safety component specifically engineered for heavy-duty truck, bus, and trailer applications. Manufactured to OEM quality standards, this caliper provides the robust clamping force necessary for reliable deceleration and consistent stopping power. Its durable steel construction and precision engineering ensure optimal performance and ease of maintenance for commercial vehicle operators.

Technical Specifications

Engineered for durability and high performance in the automotive aftermarket.

Robust steel construction ensures safety and efficiency under demanding conditions.

Material

Steel

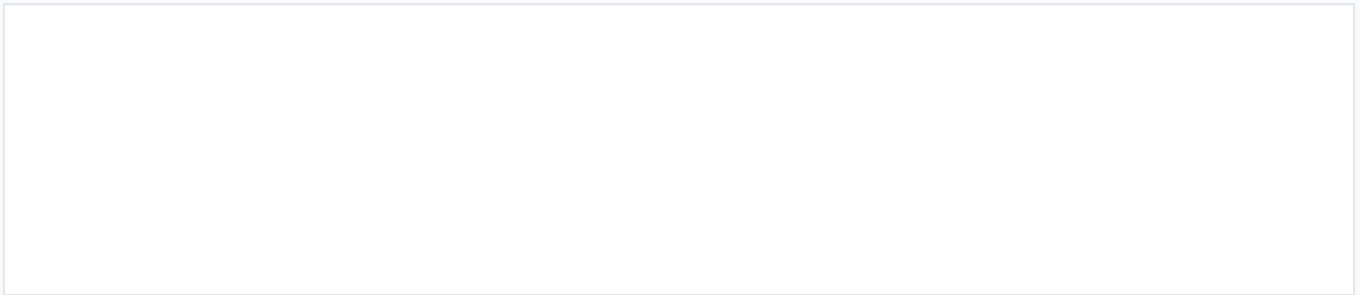

Product Name

Air Disc Brake Caliper

OEM Number

PAN17

Applications

Optimized design for efficient heat dissipation and consistent braking performance.

Compatible Vehicles

Truck, Bus, Trailer

Quality & Standards

Manufacturing Highlights

- All core parts produced in-house
- OEM quality standards
- Precision engineering for heavy-duty use
- Efficient heat dissipation to prevent brake fade

Certifications

IATF16949, ISO/TS16949:2009, European Quality Standards

Maintenance & Components

Comprehensive set of high-quality internal components including pistons and seals.

Included Components

- Caliper Housing
- Pistons
- Seals (O-rings, rubber boots)
- Bushings
- Springs
- Bolts and Hardware

Serviceability

Designed for ease of maintenance and overhaul with worldwide service compatibility.
