

All-in-One Desktop Computer

This all-in-one desktop computer integrates the display, keyboard, and mouse into a single unit. The colorful design adds a modern touch to any environment.

Overview

Compact All-in-One Solution

The P17C-330 is an all-in-one desktop computer designed to streamline workspace efficiency by integrating the display and computing components into a single unit. Featuring a 17-inch LCD screen and built-in audio capabilities, this system is well-suited for basic computing tasks and space-constrained environments. Its unified design reduces cable clutter while providing essential connectivity and performance for standard professional applications.
