Product Overview

Professional Nut Processing Solution

This industrial-grade slivering machine is specifically engineered to process almonds, peanuts, and pistachios into consistent, precise slivers or slices. Designed for high-capacity food processing environments such as bakeries, restaurants, and snack manufacturing facilities, it ensures uniform cutting for use in desserts, beverages, salads, and soups. The robust construction prioritizes both operational efficiency and hygiene, making it a reliable asset for commercial food production lines.

Technical Specifications

Key Features

- Adjustable cutting blades for thickness control
- Designed for continuous operation
- High processing capacity
- Easy cleaning and maintenance

Compatible Materials	Almonds, Peanuts, Pistachios
Construction Material	Stainless Steel

Service and Support

Maintenance and After-Sales

The machine includes a one-year guarantee covering design defects, with free replacement parts provided for such issues. Lifelong maintenance support is available for all units. Technical support is provided for any operational inquiries or maintenance needs.

Warranty Period	1 Year
