

Aluminum Alloy Basin-Shaped Speaker Stand

This 12-inch speaker accessory features a durable aluminum alloy basin-shaped stand, providing optimal speaker mounting and stability. The design incorporates multiple mounting points and a rigid structure for secure and vibration-free speaker performance.

Product Overview

Professional Speaker Mounting Solution

The S series 12-inch speaker accessory features a robust aluminum alloy basin-shaped stand designed for optimal speaker mounting and stability. Engineered for audio-video applications, this component provides a rigid structure that ensures secure, vibration-free performance. Its durable aluminum construction not only supports heavy-duty usage but also aids in heat dissipation, extending the reliability of your speaker system.

Technical Specifications
