

Angle Grinder

This angle grinder is designed for cutting, grinding, and polishing various materials. It features a powerful motor, durable construction, and ergonomic design for comfortable operation.

Overview

Professional Performance Angle Grinder

This high-performance angle grinder is engineered for demanding tasks, including cutting, grinding, and polishing a wide variety of materials. Built with a powerful motor and durable construction, it delivers consistent reliability for both professional industrial applications and intensive DIY projects. The ergonomic design ensures operator comfort during extended use, while integrated safety and control features like the adjustable guard and side handle provide enhanced precision.

Key Features

Usability Features

- Adjustable safety guard
- Spindle lock for quick disc changes
- Ergonomic side handle for control
- Durable heavy-duty construction

Primary Applications

Cutting, Grinding, Polishing
