Product Overview

Professional HVACR Service Valve

This angled service valve is engineered for efficiency in refrigeration and air conditioning maintenance. Designed for tight spaces, its angled configuration ensures easy access and reliable connection. Constructed from high-durable materials, it provides a leak-free solution for various refrigerant pressures in demanding HVACR environments.

Technical Specifications

Configuration	Angled
Connection Size	15mm x 15mm
Model Code	E00014

Quality & Standards

Manufacturing Standards	Green Manufacturing, Quality Guaranteed, Cost Efficient
