

Anti-Clogging Abrasive Cloth Roll

This anti-clogging cloth roll is designed for use with power tools and accessories. It features a durable cloth backing and a specialized coating to prevent clogging during sanding, grinding, and polishing.

Product Overview

Anti-Clogging Abrasive Cloth Roll

This high-performance abrasive cloth roll is engineered for demanding sanding, grinding, and polishing applications. Featuring a durable cloth backing and a specialized anti-clogging coating, it maintains consistent performance over extended periods. Designed for compatibility with electric tools and accessories, it provides a reliable solution for professional surface finishing tasks.

Technical Specifications

Model Number	JA-548M
Grit Rating	AA-180
Key Features	Anti-clogging coating, Durable cloth backing, Electric tool compatible

Applications

Primary Applications

- Sanding
- Grinding
- Polishing
