

# Anti-Clogging Abrasive Sandpaper

This abrasive paper is designed to prevent clogging and static buildup during use. Its flexible and wear-resistant base makes it suitable for paint sanding applications, providing efficient material removal and a smooth surface.

## Product Overview

### High-Performance Anti-Clogging Sandpaper

This premium abrasive paper is engineered with special materials to provide superior anti-clogging and anti-static properties, making it an ideal tool for professional paint sanding. The flexible latex paper base offers high wear resistance and durability, ensuring high sanding efficiency and a smooth surface finish. Designed for both dry and wet applications, it maintains performance across a wide range of grit sizes and formats.

## Key Features

### Performance Metrics

**1200 P**

Max Grit Size

**80 P**

Min Grit Size

### Special Properties

Anti-Clogging • Anti-Static • Flexible Base • High Wear Resistance • Wet & Dry Use

## Technical Specifications

Abrasive Grain	Aluminum Oxide (Corundum)
Backing Material	Bwt/Cwt Latex Paper
Bonding	Resin over Resin (R/R)
Standard Sheet Size	230mm x 280mm

## Availability

### Available Forms

- Sheets
- Rolls
- Discs
- Belts

### Available Grit Sizes

80, 100, 120, 150, 180, 220, 240, 280, 320, 360, 400, 600, 800, 1000, 1200

## Packaging & Logistics

### Packaging Options

Unit	Quantity
Per Bale	100 sheets
Per Carton (Small)	500 sheets
Per Carton (Large)	1000 sheets
