

Anti-Shock Spirit Level with Three Vials

This 50 cm spirit level is designed for precision leveling in various applications. It features three vials for horizontal, vertical, and 45-degree measurements and is constructed with a durable frame.

Product Overview

Professional Precision Leveling

This 50 cm anti-shock spirit level is engineered for high-precision leveling across construction, carpentry, and professional DIY applications. Featuring a robust, durable frame, it is built to withstand demanding job site conditions while maintaining measurement accuracy. With three integrated vials, it provides reliable readings for horizontal, vertical, and 45-degree alignments.

Technical Specifications

Vial Orientations

- Horizontal
- Vertical
- 45-degree

Length	50 cm
Model Identifier	AB00541

Features

Ideal Applications

Construction • Carpentry • DIY Projects

Key Features	Anti-Shock, Durable Frame, Precision Leveling, 3-Vial System
