

Antique Brass Finish Ceiling Fan with Wooden Blades

This ceiling fan features an antique brass finish on the motor housing and blade brackets, complemented by five wooden blades with a natural wood grain finish. It is designed for indoor use and provides efficient air circulation.

Overview

Antique Brass Ceiling Fan

This ceiling fan combines classic aesthetics with functional efficiency, featuring an antique brass finish motor housing and elegant wooden blades. Designed for quiet operation, it provides effective air circulation for medium to large rooms. By utilizing the fan in combination with air conditioning, users can significantly reduce energy consumption and improve indoor climate comfort.
