

Audio Cable

High-quality audio cable designed for optimal signal transmission. It is suitable for connecting audio components such as amplifiers, speakers, and receivers.

Product Overview

High-Performance Audio Connectivity

This high-quality audio cable is engineered for optimal signal transmission, ensuring clear and accurate sound reproduction. Designed with twisted pair conductors for superior noise reduction, it maintains signal integrity across your audio setup. Its durable insulation and flexible construction allow for long-lasting performance and easy installation in any professional or home environment.

Technical Specifications

Design Features

- Twisted pair conductors for noise reduction
- Durable insulation for longevity
- Flexible construction for easy installation

Suitable Applications

Amplifiers, Speakers, Receivers
