Product Overview

Professional Auto-Darkening Welding Helmet

This professional-grade welding helmet features advanced auto-darkening technology with a reaction time of 1/15,000 seconds, ensuring rapid eye protection. It is powered by a battery with solar-assist, offering up to 5,000 hours of operational life. Designed for versatility, it supports MIG, STICK, and TIG welding (10 Amps) with variable shade controls and adjustable sensitivity to suit various working conditions.

Technical Specifications

Lens Darkening Reaction Time	15000 1/sec
Variable Shade Range	9-13
Independent Arc Sensors	2
TIG Welding Rating	10 A

Power & Efficiency

Battery Life	5000 hours
Power Source	Battery Powered, Solar-Assist
Auto-Off Circuitry	15-20 min

Logistics & Packaging

Packaging Configurations

Packing Type	Quantity per Carton
Bulk Packing	16
Assembly Packing	6
