Product Overview

Smart Cleaning Efficiency

This automated floor cleaning robot combines intelligent navigation with powerful suction to maintain pristine floors in professional environments. Equipped with a high-capacity lithium battery, it provides up to 100 minutes of continuous cleaning time and features automated recharging capabilities. The device utilizes advanced sensors to provide bump-free and drop-free navigation, ensuring safe operation around furniture and edges.

Technical Specifications

Battery Capacity	2200 mAh
Rated Voltage	14.4 V
Suction Power	500 Pa
Dust Bin Capacity	0.6 L
Rolling Brush Width	168 mm

Performance Features

Max Working Time

100 min

Working Time

Cleaning Capabilities

- Multi-cleaning modes
- Deep clean with mop
- Wide rolling brush coverage

Smart Functions

Bump-free navigation, Drop-free protection, Auto recharge, Detachable mop, Wireless control
