

Automatic Bottle Capping Machine

This automatic capping machine is designed for high-speed and precise application of caps onto containers. It features stainless steel construction, adjustable torque control, and a user-friendly interface.

Product Overview

High-Speed Automatic Capping Solution

This automatic capping machine is engineered for high-speed and precise application of caps onto a wide variety of containers. Built with robust stainless steel, it ensures durability and hygiene, making it suitable for the food, beverage, pharmaceutical, and cosmetic industries. The system includes adjustable torque control and a user-friendly interface, providing versatility and ease of operation for diverse packaging requirements.

Technical Specifications

Material	Stainless Steel
Torque Control	Yes
Suitable Industries	Food, Beverage, Pharmaceutical, Cosmetic

Safety & Operation

Safety Mechanisms

- Emergency stop buttons
- Interlocked guarding

Operation Interface

User-friendly interface • Easy maintenance
