

# Automatic Carton Sealer with Adjustable Tape Head

This automatic carton sealer is designed for sealing cartons of various sizes. It features an adjustable tape head for different box dimensions and ensures efficient and consistent sealing.

## ADDITIONAL IMAGES

## Product Overview

### Automatic Carton Sealer Solution

This automatic carton sealer is engineered for efficient and reliable sealing of various box sizes in industrial packaging environments. It features an adjustable tape head dispenser for precise tape application, ensuring secure closure and product protection during transit. Designed for high-volume operations, this machine streamlines the end-of-line packaging process, significantly increasing productivity while reducing manual labor costs.

## Operational Capabilities

Operation Mode	Inline Wiring, Stand-alone
Sealing Action	Automatic steering with simultaneous upper and lower side corner sealing
Customization	Yes

## Construction & Quality

### Build Quality

Durable Structure • High-Quality Pneumatic Components • High-Quality Electronic Components

### Performance Metrics

<b>1 High</b> Operation Stability	<b>1 High</b> Precision
--------------------------------------	----------------------------

## Application

### Suitable Industries

- Food and Beverage
- Pharmaceuticals
- Logistics
- General Packaging
