Overview

High-Efficiency Automatic Carton Sealing

This automatic carton sealing machine utilizes advanced international technologies and imported electrical and pneumatic components for reliable performance. It features automatic adjustment for carton width and height, ensuring a perfect fit for various box sizes without manual intervention. Designed for versatility, it can operate as a standalone unit or integrate seamlessly into fully automatic packaging lines.

Key Features

Operational Capabilities

- Automatic width and height adjustment
- Automatic carton cover folding
- Simultaneous top and bottom tape sealing
- Self-centering tape head for consistency
- Integrated roller conveyor system

Safety & Compliance

Safety Systems

- Blade guards to prevent operational accidents
- Emergency stop buttons
- Protective safety guards
