

Automatic Carton Sealing Machine

This automatic carton sealing machine provides a robust solution for packaging operations. It automatically seals cartons of various sizes with precision and speed, featuring adjustable parameters and a durable frame.

Overview

Super Deluxe Carton Sealing System

This automatic carton sealing and packing solution is designed for high-volume industrial operations, providing a comprehensive packaging workflow. The system integrates sealing, high-resolution inkjet printing, and automatic strapping into a unified, efficient process. It is built for durability and precision, suitable for diverse sectors including food, beverage, pharmaceuticals, and consumer goods.

System Configuration

Included Components

- ST1M Non-powered conveyor (1 unit)
- FJ523B Automatic sealing machine (1 unit)
- SD8060A Automatic strapping machine (1 unit)
- ST2M Non-powered conveyor (1 unit)
- U-TWO High-resolution inkjet carton printer (1 unit)

System Capabilities

Automatic Carton Sealing, High Resolution Printing, Automatic Strapping, Date Coding, Batch Numbering

Key Features

Safety & Design

Emergency Stop • Protective Guarding • Adjustable Parameters • Durable Frame Construction

Suitable Industries

- Food and Beverage
- Pharmaceuticals
- Consumer Goods
