Overview

Smart Wireless In-Car Charging

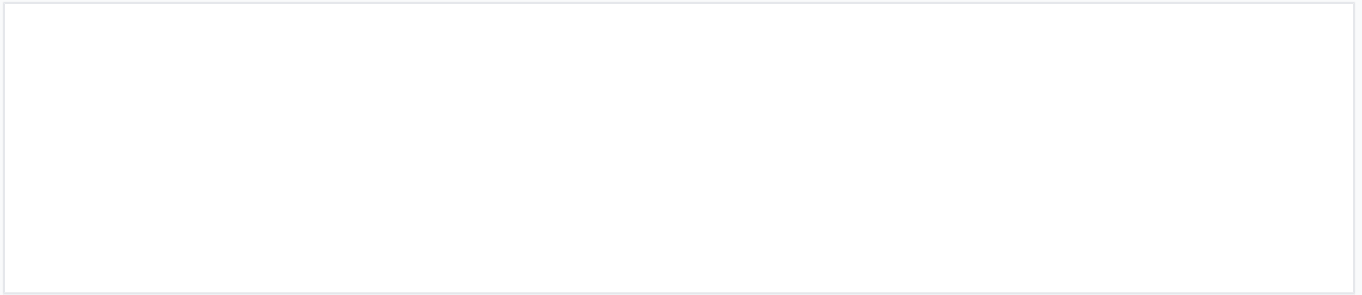

This patented automatic clamping wireless car charger mount offers a convenient, cable-free solution for your vehicle. Designed for safety and flexibility, it features a 360-degree rotating ball joint and adjustable coil positioning to fit a wide range of smartphones securely. It supports fast wireless charging with advanced protection features, including over-heating and short-circuit safeguards, ensuring a reliable power delivery experience.

Technical Specifications

Input Voltage	DC5V / DC9V
Charging Efficiency	75 %
Charging Distance	8 mm
Product Dimensions	125 x 95 x 55 mm
Clamp Width Range	65mm - 90mm

Features & Compliance

Safety Protections

- Short-circuit protection
- Over-heating protection
- Over-voltage protection
- Over-current protection

Performance Metrics

10 W

Max Output

1 Year

Warranty Period

Certifications	CE, FCC, RoHS, Qi
