

Automatic Coffee Vending Machine

This is a coin-operated coffee vending machine with a European design. It is suitable for families, public places, and offices with its mini size, micro control, and convenient use.

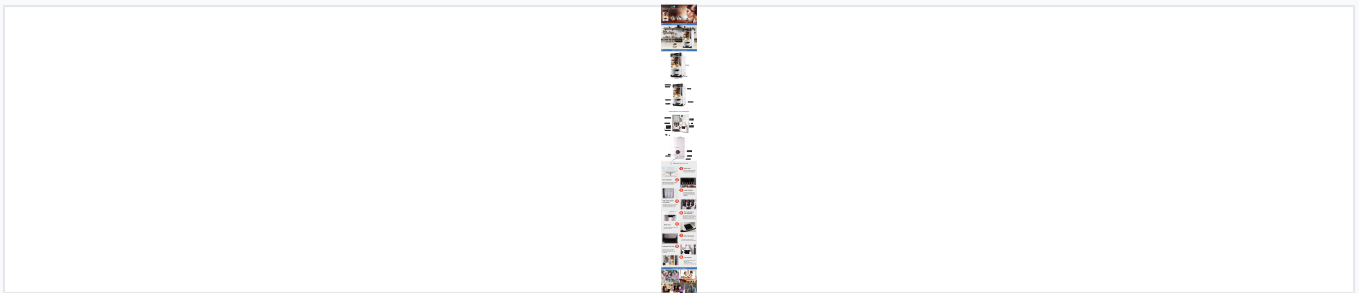

Product Overview

Professional Automatic Vending Solution

This advanced automatic coffee vending machine features a compact European-inspired design, making it perfectly suited for office spaces, public areas, and residential use. It incorporates a microcomputer control system that ensures consistent, high-quality beverage preparation through a high-speed mixing mechanism. Designed for convenience and reliability, the unit supports both coin-operated payment and flexible cup-handling options for efficient commercial operation.
