

Automatic Condensate Removal Pump

This automatic condensate removal pump is designed with durable thermoplastic construction. It is designed for efficient removal of condensate from air conditioners, dehumidifiers, and other appliances.

Product Overview

Efficient Condensate Management

This automatic condensate removal pump is engineered for the reliable extraction of water from air conditioning systems, dehumidifiers, and similar appliances. Built with durable thermoplastic materials, the unit ensures long-lasting performance even in demanding environments. Its compact design allows for seamless installation in tight spaces, while the integrated float switch facilitates fully automatic, hands-free operation.

Performance Metrics

Vertical Lift Capability

15 ft

Max Vertical Lift

Technical Specifications

Discharge Adapter Size	3/8-inch barbed
Power Cord Length	6 ft
Material	Thermoplastic

Features

Key Features

- Automatic operation via float switch
- Compact, space-saving design
- Durable thermoplastic housing
- Easy installation

Compatibility

Suitable Applications	Air Conditioners, Dehumidifiers
