

Automatic Condiment Filling Machine

This high-speed automatic condiment filling machine is designed for filling liquid food products. It features a conveyor, automated filling nozzles, and stainless steel components for hygiene and durability.

Product Overview

High-Efficiency Condiment Filling Solution

This automatic filling machine is engineered for the precise packaging of liquid seasonings, including cooking oil, soy sauce, and vinegar. It supports versatile container types such as PET, HDPE, glass, and metal, ensuring flexibility for diverse production lines. With advanced filling valve options and high-speed throughput capabilities, this system is designed to optimize efficiency and maintain product quality in high-volume food and beverage manufacturing environments.

Technical Capabilities

Production Capacity

5000 bottles/hour

Minimum Capacity

36000 bottles/hour

Maximum Capacity

Filling Modes

- Mechanical valve filling
- Electronic valve filling

Compatibility

Applicable Products

Cooking oil, Soy sauce, Vinegar, Liquid seasonings

Suitable Containers

PET, HDPE, Glass, Metal
