

Automatic Drip Coffee Maker with Programmable Timer

This automatic drip coffee maker features a transparent glass carafe and a visible water level indicator. It includes a programmable timer for automatic brewing and a keep-warm function to maintain coffee temperature.

Product Overview

Professional Automatic Drip Coffee Maker

This high-capacity automatic drip coffee maker is designed to streamline your daily brewing process with efficiency and style. Featuring a fully programmable timer, it allows users to schedule brewing in advance, while the keep-warm functionality ensures coffee remains at the ideal temperature for serving. Built with a user-friendly design, the unit includes a clear water level indicator and a removable filter basket for effortless maintenance in both home and office environments.
