

Automatic Edible Oil Filling Machine

This automatic filling machine is designed for edible and cooking oils. It ensures accurate and consistent filling for various bottle sizes, minimizing spillage.

Overview

High-Efficiency Automated Filling Solution

This automatic filling machine is engineered for high-precision processing of edible oils, beverages, and viscous liquids. Featuring a robust 304 stainless steel construction, it ensures sanitary operation and durability for food-grade environments. The system utilizes advanced PLC controls for high-speed, consistent filling across various bottle types and sizes, making it an ideal choice for modern packaging lines.

Technical Specifications

Filling Capacity

3000 BPH
Production Rate

Model	BLDG-L
Compatible Bottle Volume	0.2 L - 10 L
Contact Parts Material	304 Stainless Steel
Control System	Japan Mitsubishi PLC

Compatibility

Suitable Liquids

- Edible Oils
- Mineral Water
- Pure Water
- Fruit Juice
- Tea
- Milk
- Wine
- Salad Oil
- Shampoo

Compatible Container Types	PET Bottles, Glass Bottles, Anomalistic Bottles
----------------------------	---

Service & Support

Warranty

1 Year Warranty
