

Automatic Paper Cup Forming Machine

This high-speed automatic paper cup forming machine is designed for efficient paper cup production. It features a robust mechanical structure, precise cam indexing system, and automatic lubrication for continuous operation.

Product Overview

High-Speed Production Solution

This automatic paper cup forming machine is engineered for high-efficiency, continuous production of paper cups. Built with a robust mechanical structure and a precise cam indexing system, it ensures reliable performance and high output. The unit is fully adjustable to accommodate various cup sizes, including different diameters, heights, and bottom dimensions, making it a versatile asset for manufacturing facilities.

Technical Specifications

Model Identifier	JNW-D
Key Features	Automatic Lubrication, Cam Indexing System, Robust Structure, High-Speed Operation

Operational Capabilities

Process Workstations

- Automatic Paper Feeding
- Heating
- Bottom Knurling
- Curling
- Cup Ejection

Adjustable Parameters

Cup Diameter • Cup Height • Bottom Diameter
