

Automatic Powder Filling and Sealing Machine

This automatic powder packaging machine is designed for precise filling and sealing. It features adjustable filling volume, high-speed operation, and compatibility with various packaging materials.

Overview

Automatic Powder Filling and Sealing Machine

This automatic powder packaging machine is designed for the precise and efficient filling and sealing of various powder products. It features an adjustable filling volume and high-speed operation, making it suitable for a wide range of applications in the food, pharmaceutical, and chemical industries. Built with durable stainless steel, it ensures hygiene and longevity in demanding production environments.

Technical Specifications

Model Number	DXDF60/B
Metering System	Stepper motor
Filling Method	Screw filling

Performance & Application

Key Features

- Fast operation
- High accuracy
- Economic design
- Practical application

Suitable Materials	Pesticides, Veterinary Drugs, Additives, Chicken Powder, White Sugar, Low Flowability Powders
--------------------	---

Construction

Construction Material

Stainless Steel
