

Automatic Swimming Pool Floor Cleaner

This automatic floor cleaner is designed for swimming pools, providing efficient and thorough cleaning. It features durable construction, powerful suction for removing debris, and an intelligent navigation system for complete coverage.

Product Overview

Smart Pool Maintenance Assistant

This automatic pool floor cleaner provides a hassle-free solution for maintaining clean pool environments. Engineered with a powerful suction pump and an easy-to-rinse filter system, it efficiently collects debris ranging from fine dust to leaves and algae. Its intelligent navigation and multiple cleaning programs allow it to adapt to various pool sizes, shapes, and flat or slightly sloped bottoms.
