

Automatic Tube Filling and Sealing Machine

This automatic tube filling and sealing machine fills and seals various products into tubes. It features stainless steel construction, a precision filling system, and automatic tube feeding and orientation, with PLC control.

Overview

High-Efficiency Tube Filling and Sealing

This automatic tube filling and sealing machine is engineered for precision packaging across the cosmetic, pharmaceutical, and food industries. Featuring robust stainless steel construction, it ensures durability and hygiene standards required for professional production environments. The system utilizes an advanced programmable logic controller (PLC) for seamless operation, offering automated tube feeding, orientation, and high-accuracy filling.

Technical Specifications

Construction Material	Stainless Steel
Control System	Programmable Logic Controller (PLC)

Key Features

Automation Features

- Automatic tube feeding
- Automatic tube orientation
- Precision filling system
- Integrated sealing process

Industry Applications

Suitable Industries	Cosmetic, Pharmaceutical, Food
---------------------	--------------------------------
