

# Automatic Water Pressure Booster Pump for Home Use

This automatic pump boosts water pressure for home use. Multiple models are available with varying power, voltage, connection sizes, and capacity.

## Product Overview

### Automatic Water Pressure Boosting

This automatic water pressure booster pump is designed to provide consistent, reliable water pressure for residential applications. Featuring an integrated flow switch, the system enables fully automatic operation, ensuring water supply is available on demand. It is engineered for versatility, with multiple model configurations available to suit different installation requirements and performance needs.

## Performance Metrics

### Performance Highlights

**2860 RPM**

Speed

**15 m**

Max Head

**33 L/min**

Max Capacity

## Technical Specifications

### Model Specifications

Model	Connection Size	Max Head
W12GR-10	12mm	10
W15GR-15	15mm	15
W15G-15	15mm	15
W15GZ-15	15mm	15

## Electrical & Connectivity

Power Requirements	220-240V / 50Hz
Available Models	W12GR-10, W15GR-10, W15GR-15, W15GR-18, W15G-10A, W15G-10B, W15G-15, W15G-18, W15GZ-15
