

Automatic Wire Stripping and Bundling Tool

This automatic tool efficiently strips and bundles wires with precision. Its adjustable stripping depth and tension accommodate various wire gauges, and it features an ergonomic handle for comfortable use.

Product Overview

Professional Wire Preparation Solution

This automatic wire stripping and bundling tool is engineered for high-efficiency and precision in wire preparation tasks. It features adjustable stripping depth and tension settings to accommodate a wide range of wire gauges, ensuring versatile performance across various projects. Built with durable materials and an ergonomic handle, it is designed to reduce hand fatigue during extended use in electrical, automotive, and DIY applications.

Key Features

Core Functions

- Automatic wire stripping
- Integrated bundling capability
- Adjustable stripping depth
- Adjustable tension control

Design & Ergonomics

Construction

Durable Materials • Long-lasting Performance

Handle Type

Ergonomic handle designed for comfort and reduced hand fatigue

Applications

Target Applications

Electrical, Automotive, DIY

Technical Specifications

Wire Compatibility

Supports various wire gauges via adjustable settings
