

# Automotive Air Conditioning Condenser

This condenser is designed for efficient heat transfer and optimal cooling in automotive air conditioning systems. Its durable construction ensures corrosion resistance and reliable operation in diverse driving conditions.

## ADDITIONAL IMAGES

## Product Overview

### Automotive Air Conditioning Condenser

This high-performance automotive air conditioning condenser is engineered for efficient heat transfer and optimal cooling performance. Constructed with durable materials to ensure long-lasting reliability and corrosion resistance, it is designed to meet or exceed OEM specifications for precise fit and function. Its parallel flow design enhances cooling capacity while reducing pressure drop, ensuring reliable operation across various driving conditions.

## Vehicle Compatibility

### Compatible Vehicles

- Mitsubishi Outlander LS L4 2.4L (2003-2006)

## Technical Specifications

### Core Dimensions

**692 mm**  
Length

**390 mm**  
Width

**16 mm**  
Depth

### Industry Reference Codes

Reference Type	Code
TS Number	88-72003
DPI	4727
Nissens	940165

### OEM Cross Reference

MN124248, MR958462

## Logistics

Carton Dimensions

810 x 115 x 464 mm
