

Automotive Clutch Pressure Plate for Geely Panda

This automotive clutch pressure plate is designed for the Geely Panda. It ensures efficient power transfer and smooth engagement.

Overview

Automotive Clutch Pressure Plate Assembly

This automotive clutch pressure plate assembly is engineered for efficient power transfer and smooth engagement in demanding driving conditions. Featuring a robust construction with multiple mounting points, it ensures secure installation and long-term reliability. The central diaphragm spring is designed to provide consistent clamping force, while the precision-engineered friction surface optimizes grip with the clutch disc.

Technical Details

Part Number	3G10
Dimensions	184 x 122
OEM Reference Numbers	10160002609, 100110-3

Compatibility

Compatible Vehicle	Geely Panda
--------------------	-------------
