

Automotive Front Bumper

This automotive front bumper provides protection to the front of a vehicle. It is made from impact-resistant materials and is designed to withstand various road conditions.

Product Overview

Fortuner 16 Front Bumper

This robust front bumper is precisely engineered for the Fortuner 16 model, offering a seamless fit with the vehicle's existing body lines. Constructed from high-quality, impact-resistant materials, it provides optimal front-end protection against road hazards and minor collisions. The aerodynamic design enhances both the vehicle's aesthetic appeal and fuel efficiency, while a durable surface coating ensures resistance against corrosion and fading.

Technical Features

Durability Features

- Impact-resistant material
- Corrosion-resistant coating
- Fade-resistant finish
- Chip-resistant surface

Vehicle Compatibility	Fortuner 16
Lighting Provisions	Fog Lights, Auxiliary Lighting

Installation

Installation	Features integrated mounting points for easy installation and seamless fitment.
