

# Automotive Heater Core

This automotive heater core is designed for efficient heat transfer within a vehicle's HVAC system. It features durable construction with aluminum fins and robust tubing for optimal thermal conductivity and reliable performance.

## ADDITIONAL IMAGES

## Product Overview

### High-Efficiency Automotive Heater Core

This automotive heater core is engineered for optimal heat transfer within vehicle HVAC systems, ensuring reliable cabin heating performance. Constructed with durable, corrosion-resistant materials and a high-density fin matrix, it provides efficient thermal conductivity. Designed for direct replacement, this unit helps restore effective defrosting and interior climate control in compatible Jeep models.

## Technical Specifications

Core Dimensions	203 x 187 x 32 mm
OEM Reference	4874045
Nissens Part Number	6278083

## Compatibility

### Compatible Vehicle Models

Vehicle Model	Production Years
JEEP WRANGLER II (TJ)	1996-2008
JEEP CHEROKEE (XJ)	1983-2001
