Product Overview

High-Performance Automotive Heating

This automotive heater core is engineered for efficient heat exchange within vehicle HVAC systems. Constructed with durable materials and optimized fin design, it ensures maximum thermal conductivity and reliable performance in cold weather conditions. The unit includes inlet and outlet pipes for seamless integration with the vehicle's cooling system.

Technical Specifications

Core Dimensions

185 mm
Length

166 mm
Width

32 mm
Depth

OEM Reference Numbers

1253187, 1317080, 3M5H 18B539CA

Compatibility

Compatible Vehicle Models

Make/Model	Production Year
Ford Focus II Convertible	2006-
Ford C-MAX (DM2)	2007-
Volvo S40 II (MS)	2004-
Volvo C70 II	2006-
