

Automotive Instrument Cluster with Speedometer and Tachometer

This automotive instrument cluster features both a speedometer and a tachometer. It also includes indicator lights and a digital display, integrated into a dashboard-mountable housing.

Product Overview

Automotive Instrument Cluster

This automotive instrument cluster is a comprehensive dashboard solution designed for clear and reliable vehicle monitoring. It features an integrated speedometer and tachometer, providing essential real-time data for safe and efficient driving. Housed in a durable black molded plastic casing, this unit is engineered for seamless dashboard mounting in various automotive applications.

Performance Metrics

Speedometer Range

160 km/h
Max Speed

Tachometer Range

8 x1000
Max RPM

Technical Details

Display Features

- Analog Speedometer
- Analog Tachometer
- Indicator Lights
- Digital Display

Housing Material

Black molded plastic

Mounting Type

Dashboard mount
