

Automotive Interior Console with Armrest

This gray plastic console is designed for automotive use. It features an integrated armrest with a dark gray padded top and a storage compartment.

Product Overview

Versatile Automotive Storage Solution

This automotive interior console is engineered to enhance vehicle functionality by providing a dedicated storage compartment and integrated armrest. Designed with a utilitarian aesthetic in gray plastic, it offers a robust solution for organizing cabin space. The side-opening design allows for flexible integration around existing interior components, making it an essential upgrade for interior comfort and organization.
