Product Overview

Automotive Power Solution

This maintenance-free lead-acid battery is engineered for automotive applications, utilizing advanced calcium technology to ensure reliable starting power and consistent performance. Designed for durability, it minimizes fluid loss and extends service life, making it a dependable choice for various vehicle requirements. The unit adheres to strict manufacturing standards, guaranteeing high-quality construction and consistent operation across diverse conditions.

Technical Specifications

Voltage	12 V
Battery Technology	Calcium Maintenance-Free

Certifications & Compliance

Composition	Pb
Certifications	ISO/TS16949:2009

Performance Features

Key Benefits

- Maintenance-free design
- Calcium technology for reduced water loss
- Extended service life
- Reliable starting power
