

Automotive LED Work Lamp

This high-intensity LED work lamp is designed for automotive applications. Its robust, weatherproof housing ensures durability in harsh environments.

Product Overview

High-Performance Automotive LED Work Lamp

This high-intensity LED work lamp is engineered for demanding automotive applications, providing exceptional illumination in harsh environments. With a robust, weatherproof stainless steel housing and versatile beam options, it is an ideal lighting solution for off-road vehicles, construction equipment, and emergency lighting needs. Its adjustable mounting bracket ensures flexible positioning for maximum visibility.

Technical Specifications

Brightness

2700 Lumens

Luminous Flux

Power Output	45 W
Voltage Range	10-30V
Color Temperature	6000-6500K

Construction & Durability

Waterproof Rating

IP67

Material	Stainless Steel
----------	-----------------

Performance Features

Beam Pattern	Spot Beam, Flood Beam
