Product Overview

High-Performance Automotive Oil Cooler

This high-performance oil cooler is engineered to provide efficient heat dissipation and maintain optimal oil temperature regulation. Constructed with durable, high-quality materials, it ensures long-lasting reliability and consistent engine lubrication. Designed for secure installation, this cooler is an ideal solution for automotive applications requiring enhanced thermal management to prevent engine overheating.

Technical Specifications

Core Dimensions	164 x 275 mm
Carton Size	305 x 45 x 255 mm
TS Number	52070

Compatibility

Compatible Vehicle	Mitsubishi L200
OEM Reference	2920A019
Cross Reference Numbers	DPI, Nissens 52070
