

Automotive Shock Absorber with Air Spring

This shock absorber is designed for automotive applications. It features a robust construction with an air spring to improve vehicle stability and handling.

Product Overview

Professional Cabin Shock Absorber

This high-quality cabin shock absorber is engineered for demanding automotive applications, providing superior ride comfort and handling stability. Featuring a robust construction with an integrated air spring, it ensures reliable performance under varying road conditions. The unit is designed for durability and ease of installation, making it an ideal choice for vehicle suspension maintenance.

Technical Specifications

Component Type	Cabin Shock Absorber with Air Spring
Key Features	Air Spring Integration, Robust Construction, Easy Mounting, Enhanced Stability

Design and Build

Included Hardware

- Mounting bracket
- Durable piston rod

Finish	Black Finish
