

Automotive Starter Motor

High-performance starter motor designed for automotive applications. It features robust construction for reliable operation and extended lifespan.

Product Overview

High-Performance Engine Starter

This automotive starter motor is engineered to meet or exceed original equipment standards, providing high torque output for reliable and efficient engine starting. Designed for robustness, the unit features an integrated solenoid and drive mechanism to ensure seamless electrical integration. It is an ideal replacement part for commercial and automotive engine maintenance, built to provide longevity and consistent performance under demanding conditions.

Compatibility

Compatible Engine	4Y Engine
Vehicle Applications	Toyota Hiace, Toyota Pick Up, Forklift

Quality and Shipping

Quality Level	OEM Quality
Lead Time	72 hours after order confirmation
Stock Availability	Yes
Minimum Order Quantity	1 piece
