

Automotive Tire Changer Machine

This tire changer is a robust machine designed for efficient tire removal and installation. It features a powerful motor and pneumatic system for bead breaking and tire mounting.

Overview

Professional Grade Automotive Tire Changer

This robust tire changer is engineered for high-efficiency tire removal and installation in busy automotive service centers. It combines a powerful motor and a high-performance pneumatic system to streamline bead breaking and mounting tasks. Designed with operator ergonomics in mind, this equipment significantly reduces physical fatigue during repetitive maintenance cycles while ensuring long-term durability.

Key Features

Integrated Components

- High-torque turntable with precision clamping jaws
- Pneumatic bead breaker shovel
- Specialized mounting/demounting head

Quality Compliance

Heavy Duty, Pneumatic Assist, Ergonomic Design

Usage

Applications

Automotive Service Centers • Tire Repair Shops • Maintenance Facilities
