Product Overview

High-Performance Window Regulator

This automotive window regulator is a precision-engineered mechanism designed for smooth and reliable vehicle window operation. Featuring a robust cable-driven system integrated with a high-performance geared motor, it ensures consistent movement and long-term durability. Built with durable metal components and standardized mounting hardware, this assembly is designed for seamless integration and secure installation in automotive applications.

Technical Specifications

Component Type	Window Regulator Assembly
Drive System	Cable-driven with geared motor interface
Construction Material	Durable Metal, Reinforced Cable, Mounting Brackets

Logistics

Delivery Policy

Quick Delivery

Packaging Standards	Professional safe-transit packaging
