

B22 Lamp Cap Gauge - IEC60061 and IEC60968 Compliant

This lamp cap gauge is compliant with IEC60061 and IEC60968 standards. It is designed for accurate dimensional verification of B22 lamp caps.

Product Overview

Precision Lamp Cap Gauges

These precision-engineered lamp cap gauges are designed for the accurate dimensional verification of various lamp caps, ensuring strict compliance with IEC60061 and IEC60968 standards. Essential for quality control and manufacturing, these tools verify critical dimensions such as diameter, height, and thread specifications to guarantee interchangeability and safety in lighting products. Built for durability, they are reliable instruments for lighting industry professionals.

Standards & Compliance

Compliant Standards	IEC60061, IEC60968, IEC60061-3
