

Bagged Vacuum Cleaner with Telescopic Wand

This bagged vacuum cleaner is equipped with a powerful motor for efficient cleaning and a multi-stage filtration system for improved air quality. It also features variable suction control, a telescopic wand, and onboard tool storage.

Product Overview

Professional Cleaning Performance

This bagged vacuum cleaner is engineered for high-efficiency cleaning in professional environments. Featuring a powerful motor and advanced multi-stage filtration, it ensures superior air quality while maintaining suction power. The integration of silent air technology allows for effective cleaning in noise-sensitive areas without compromising performance.

Performance Metrics

Silent Air Technology	Yes
Variable Suction Control	Yes

Design and Utility

Wand Type	Telescopic
Onboard Storage	Yes
Key Attributes	Bagged, Durable, Extended Reach

Filtration and Quality

Filtration Type	Multi-stage
