Overview

Professional Metalworking Accessory

This bench press shearing machine accessory is designed for high-efficiency production environments, featuring a rugged 5/16" welded plate construction for superior durability. It allows for the simultaneous mounting of four different types of tooling, significantly enhancing workflow versatility. With deep throat capacities of 12" and 3", this unit is engineered to support a wide range of precision metal forming tasks.

Technical Specifications

Deep Throat Options

- 12 inch (for 90° Bend kit and Stretcher)
- 3 inch (for Corner Punch and Shrinker)

Model Number	BP3-F
Item Number	376517
Construction	5/16" welded plate
Tooling Mount Capacity	4

Tooling Capacities

Tooling Capacities

Tooling Type	Max Capacity
90° Bend kit	3/8" mild steel
Stretcher	1.5 mm
Corner punch	16ga. mild steel & 1"x1" cut out
Shrinker	1.5 mm
