

Bench Vise with Hardened Steel Jaws

Heavy-duty bench vises designed for secure clamping and holding of workpieces. Constructed from durable cast iron for long-lasting performance and stability.

Product Overview

Heavy-Duty Bench Vise

This heavy-duty bench vise is expertly designed for the secure clamping and holding of various workpieces. Constructed from durable cast iron, it ensures long-lasting performance and exceptional stability during operation. The precision-machined jaws feature hardened steel inserts, providing a firm, reliable grip and superior resistance to wear.

Technical Specifications

Construction Material	Cast Iron
