

Bicycle Drivetrain Chain

This bicycle chain is designed for smooth and reliable shifting. It is constructed from durable materials for extended wear and resistance to corrosion.

Overview

High-Performance Bicycle Chain

This high-performance bicycle chain is engineered for smooth, reliable shifting and optimal power transfer. Constructed from durable materials, it offers excellent resistance to wear and corrosion, ensuring long-lasting performance. Designed for quiet operation and minimal friction, this chain is suitable for a wide range of bicycle drivetrains, making it an ideal choice for both recreational and competitive cycling.

Technical Specifications

Pitch	1/2 inch
Inner Width	3/32 inch
