

# Bicycle Tire Valve Stem with Removable Core

Brass bicycle tire valve stem with removable core and rubber base for airtight sealing. Designed for easy inflation/deflation and compatible with standard bicycle pumps.

## Product Overview

### High-Performance Valve Stem

This brass bicycle tire valve stem is engineered for reliability and ease of use, featuring a robust rubber base designed to ensure an airtight seal. The integrated removable core allows for simple maintenance and replacement, significantly extending the service life of the component. It is a versatile solution compatible with a wide range of bicycle tire types and standard inflation pumps.

## Technical Specifications

### Core Design

Removable Core

Material	Brass
Sealing Type	Rubber base for airtight seal

## Compatibility

Pump Compatibility	Standard Bicycle Pumps
Tire Types	Various bicycle tire types
