

Black Synthetic Leather Steering Wheel Cover with Blue Stitching

This steering wheel cover is made from 100% polyurethane. It brings comfort when driving.

Product Overview

Comfort and Style Enhancement

This premium steering wheel cover is crafted from 100% synthetic polyurethane leather, offering a durable and comfortable grip for drivers. Designed for longevity, it effectively protects your vehicle's steering wheel from daily wear and tear while adding a refined aesthetic with its striking blue stitching. The lightweight design ensures an easy installation process for most standard steering wheels.
